

Power Bi Service Assignment

1.Explain ,How to access the report in Power BI service from power point?

Option 1: Using the Power BI Add-in in PowerPoint

Step-by-step:

1. **Open PowerPoint.**
2. Go to the **Insert** tab → click on **“Get Add-ins”**.
3. Search for **“Power BI”** → choose **Power BI** add-in → click **Add**.
4. A Power BI frame will appear on your slide.
5. Now go to **Power BI Service** in your browser:
 - Open the **report** you want to embed.
 - Click **File > Embed > PowerPoint**.
 - Copy the **link** provided.
6. Return to PowerPoint → paste the copied link into the Power BI add-in.
7. Your report will now load **live and interactive** inside the slide.

Option 2: Insert as a Screenshot or Static Image (Not Interactive)

1. Open the report in **Power BI Service**.
 2. Take a **screenshot** of the desired page or visual.
 3. Paste or insert it into PowerPoint manually.
- This method is not interactive but is good for offline use.

Option 3: Export to PowerPoint (As Static Slides)

1. In Power BI Service, open the report.
2. Click **File > Export > PowerPoint (Preview)**.
3. Power BI will create a PowerPoint file where each **report page is a static image**.
4. Download and open the file in PowerPoint.
